1

Optimize Data to the Audience

Thursday, February 12 (1 hour)

The primary audience for BUILDER data is executive leadership. This session will discuss strategies to provide views on the data to the host of secondary audiences that could benefit from the information.

2

Executive View

Metric for measuring risk and investment requirements

- Your work configuration settings determine the work plan items and resulting FCI
- Document and defend your standards and policies
- Document and defend your data quality practices

3

Local Facility Staff

Dedicated Work Configuration

- Don't allow non-renewable elements like Foundations, Exterior Walls, etc. to generate work items.
- Don't trigger work for sections that have not been inspected
- Key Report: Final 8

4

Safety / Compliance

Mix of Functionality Assessments + Section Details

- Cooling generating systems greater than 20 years
- Key Reports: "QC5i" or "QA-Review"

5

Specific Trade Craft

System Summary and Performance

6

Program Specific Reports

Specialty reports because everyone has a different audience

- ARMY – ISR Reports

7

Real Property

Facility Records

- Measured square footage
- “Found” or “Missing” facility assets
- Facility status

8

Interactive Reporting Demo
