1

 **Inventory Scope Round-Table**
Thursday, February 12 (1 hour)

The agencies using BUILDER all have a slightly different approach on the UNIFORMAT systems that are to be included in the scope. Program leaders share scope decisions.

2

Why it matters...

Apples to Apples Metrics

- BCI trends will be different based on the inclusion of non-renewable systems

Data Call Survey

- Spreadsheet was used to collect information

3

Inventory Scope Alignment

Inclusions

- B20 Exterior Enclosure
- B30 Roofing
- C10 Interior Construction
- D20 Plumbing
- D30 HVAC
- D40 Fire Protection
- D50 Electrical

Exclusions

- E20 Furnishings
- F20 Selective Building Demolition
- G10 Site Work
- H10 Waterfront Structures
- H30 Coastal Protection
- H40 Nav Dredging/Reclamation
- H50 Waterfront Utilities

4

What the data shows

Systems and Components with differences

- A10 Foundations: USAF/Navy do not collect
- A20 Basement Construction: USAF/Navy do not collect
- B10 Superstructure: USAF/Navy do not collect B1010 – Floor Construction and B1020 – Roof Construction
- C20 Stairs: USAF does not collect
- D10 Conveying: USAF does not collect
- E10 Equipment: DHA/NNSA collect all, Navy/USAF do not collect any and Army/USDA collect some
- F10 Special Construction: NNSA/USDA use
- G20 - G90 Site Systems: NNSA is the only program currently inventorying these systems

5

Introductions

Thank you for those willing to share!

- ARS – Sandy Sadler
- DHA- Scott Lehmkuhl
- IMCOM – Jason Zeller
- Navy – Jon Crittenden
- NNSA – Julie Krebs
- USAF – Bill Valenti

6

Open Discussion

- Where are you in the process – initial assessments (implementation), sustainment, are you using BUILDER to generate work projects?
- How did you decide what you wanted to collect? How far into the weeds did you go?
- What do you wish you would have collected differently?
- Has anyone done an assessment with one scope and another assessment later with a different scope? If so, what was the thought process behind the change, did you get the result you wanted and have there been any issues with consistency?

7

What the data shows

Systems and Components with differences

- A10 Foundations: USAF/Navy do not collect
- A20 Basement Construction: USAF/Navy do not collect
- B10 Superstructure: USAF/Navy do not collect B1010 – Floor Construction and B1020 – Roof Construction
- C20 Stairs: USAF does not collect
- D10 Conveying: USAF does not collect
- E10 Equipment: DHA/NNSA collect all, Navy/USAF do not collect any and Army/USDA collect some
- F10 Special Construction: NNSA/USDA use
- G20 - G90 Site Systems: NNSA is the only program currently inventorying these systems

8

Questions

Anyone from the Audience have questions?

- What about at the table?

9

Next Round-Table

What would you want to hear discussed?

- Inspection procedures?
- Work Configuration?

10
